

Sharath Thomas

Senior DevOps Engineer

sharathct22@gmail.com [LinkedIn](#) [GitHub](#) <https://sharath.is-a.dev>

PERSONAL PROFILE

Inquisitive and innovative Computer Science post-graduate from the University of Leicester. Highly skilled in DevOps and cloud technologies, IoT, mobile, and web development. Proven student leader as former Technical Lead of a student chapter and published researcher. Seeking to leverage software development and technical leadership skills in a high-impact engineering role.

EXPERIENCE

Synopsys / Ansys

Sheffield, UK

Senior Engineer

Jul 2025 — Present

Architected and supported enterprise-scale cloud engineering platforms and infrastructure on Azure/GCP, improving deployment reliability by 35%.

R&D Engineer II

Apr 2025 — Jul 2025

Led R&D initiatives for build and release automation, designing CI/CD workflows that accelerated software release cycles by 40%.

R&D Engineer

Dec 2023 — Apr 2025

Designed, developed, and maintained robust internal CI/CD tooling and scalable test infrastructure supporting 150+ developers.

DevOps Engineer

Jul 2023 — Dec 2023

Streamlined CI/CD pipelines and managed containerized cloud workloads; engineered real-time Grafana/Prometheus dashboards to monitor pipeline health.

DevOps Intern

Jul 2022 — Jun 2023

Standardized enterprise CI/CD pipelines using GitHub Actions, migrating 50+ repositories from Azure DevOps to GitHub while preserving git history. Built and containerized a React/Flask web application for Ansible automation. Packaged Python tools with Nuitka, reducing deployment overhead by 25%.

Samsung R&D Institute India

Bengaluru, India

Nov 2019 — Aug 2020

Developed an IoT-based health-telemetry solution for Samsung Watches, integrating real-time sensor data with AWS IoT Core services.

ISA-VIT (International Society of Automation)

Vellore, India

Dec 2017 — Jun 2020

Progressed from Core Member to Technical Lead. Organised technical events and workshops for the student chapter.

EDGATE Technologies

Bangalore, India

Jun 2019 — Jul 2019

Embedded Systems and IoT internship focusing on hardware-software integration.

EDUCATION

MSc Advanced Computer Science

2021 — 2023

University of Leicester

BTech Electrical & Electronics Engineering

2017 — 2021

VIT Vellore

SKILLS

CI/CD & Pipelines: GitHub Actions, Azure DevOps Pipelines, Jenkins

Containers & Orchestration: Docker, Kubernetes, Google Kubernetes Engine, Helm

Cloud Platforms: Azure, Google Cloud Platform

Monitoring & Observability: Grafana, Prometheus, ELK Stack, Logging

IaC & Configuration: Ansible, Terraform

Languages: Python, JavaScript, TypeScript, Java, Bash, HCL

Frontend: React, Flask, HTML/CSS

DevOps Tooling: Git, Linux, Nuitka, Containerized Solutions

CERTIFICATIONS

- Kubernetes and Cloud Native Associate (KCNA)
- Architecting with Google Kubernetes Engine Specialization
- Architecting with Google Compute Engine Specialization
- Industrial IoT on Google Cloud Platform
- Java for Android
